Proven ability to establish and maintain excellent communication and relationships with company and clients. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

WORK EXPERIENCE

Junior Frontend Web Developer

Robotics World   03/October/2022 - 14/April/2022

- As a Junior Front-End Developer at Rebortics World, i played a key role in the development and maintenance of our web applications and websites. my primary focus was on front-end development, utilizing your skills in HTML, CSS, Bootstrap, JavaScript, and WordPress. I worked closely with the development team to create visually appealing, responsive, and user-friendly interfaces that enhanced the user experience.

Frontend Web Developer

SimplexMed   15/April/2022 - Continue

- At Simplex Med, I specialize in front-end development, primarily focusing on React.js and Material-UI (MUI). I work diligently to craft visually appealing and responsive user interfaces. My role involves collaborating closely with backend developers to ensure seamless integration of server-side logic and data. With a commitment to delivering top-notch user experiences, I stay current with the latest advancements in React.js and MUI, consistently refining my front-end development skills to adhere to industry best practices.
